In the meantime I told them to contact CalOSHA.

I'd suggest:

That's a tough question. I don't know that we have taken that type preemptive action at any site in our Region, or if we even have the authority to do so. I'll check with our Regional Counsel and be prepared to discuss when we meet.

Clancy Tenley  
Assistant Director  
Superfund Division

I don't know how to respond. Any thoughts?

Hey Jean – I'll forward this to Nicole ... she'll have a better grasp on whether this is something EPA could weigh in on at this point in time.

Steven

I forgot to ask one question....is there anyway EPA can stop the City of Riverside and the developer from temporarily conducting activities on the Ag Park Site for now, until investigation is complete...we are concerned that city workers will be exposed to contaminants...the workers are concerned but they don't want to say anything..for fear of losing their jobs. I know this is a tough one...

Thanks,  
Jean
